

SCTPO E-News – July 2016

Official Ellis Road SIS Designation

The **Ellis Road** PD&E was completed in October of 2015. One of the recommendations that came from the PD&E was to move the Strategic Intermodal System (SIS) designation off of US 192 and on to Ellis Road. The SIS designation change will improve access to the Melbourne International Airport and will make the Ellis Road project eligible to receive SIS funds. This should also help speed up the construction process. [Official SIS Designation Letter](#)

Final Passenger Rail Location Study

In December, 2014 the SCTPO and the Canaveral Port Authority agreed to undertake a study to identify a potential station location that would be supported by the various stakeholders in Brevard County. The locations have been submitted to All Aboard Florida for consideration.

2015 Traffic Counts Available

The SCTPO manages a traffic count program to monitor traffic level on major arterial and collector roadways in Brevard County. Counts are conducted from October to February each year.

Count results are maintained in an [Interactive Traffic Count Database](#) System that provides current and previous year traffic volumes, count location details, trends, graphs, reports, and maps. The data is also published in report form – [Traffic Counts Report 2006-2015](#). Other Traffic Count sources – [FDOT Traffic Information](#) and [FDOT On-line Traffic Counts](#)
