Field Data Collection Questionnaire

General Attributes

1. **ID**—A unique ID assigned to each bus stop.
2. **Location**—Nearest intersection to the bus stop.
3. **Latitude**—The latitude of the bus stop.
4. **Longitude**—The longitude of the bus stop.
5. **Direction**—The general direction the bus is traveling.
6. **Ridership**—The route's average ridership/ the perceived usage of the bus stop.
7. **Trip Generators**—Any nearby and obvious trip generators for passengers at this stop.
8. **Photographs**—A photograph of the bus stop looking northbound, southbound, eastbound, westbound. If applicable, additional photographs of the bus stop, surrounding area, or elements will also be recorded.

Location Attributes

1. **Stop Location**—The physical location of the bus stop (e.g. On an unpaved or on a paved shoulder of a roadway).
2. **Bus Location**—The location of the bus, when stopped at the bus stop (e.g. In a travel-thru lane, in a right-turn only lane, or in a bus bay).
3. **Relation to Intersection**—The location of the bus stop in relation to the nearest intersection (e.g. nearside, farside, or midblock).
4. **Hazards**—Are there any potential traffic or safety hazards at the bus stop (e.g. the bus discharges passengers onto the roadway, the bus stop is just over the crest of a hill, or the bus stop is located just after the curve in the street).

Bus Stop Attributes

1. **Curb Type/Height**—If applicable, what is the height and type of curb at the bus stop?
2. **Is there a B&A area**—Is there a boarding and alighting (B&A) area at the bus stop?
 - a. **What prevents a B&A area**—If there is no B&A area, what prevents a B&A area from being located at this location?
 - b. **B&A Materials**—What material is the B&A area made out of (dirt/grass, cement, or is it partially paved)?
 - c. **Is the B&A Safe**—Is the B&A area in a safe area for waiting and boarding?
 - d. **B&A Condition**—What is the physical condition of the B&A area? Is it free of defects (is it firm, stable, and slip resistant)?
 - e. **Running Slope**—What is the running slope of the B&A area?
 - f. **Cross Slope**—What is the cross slope of the B&A area?
 - g. **B&A Obstructions**—If applicable, what obstructions are there in the B&A area?
 - h. **B&A Barriers**—Are there any physical barriers that constrict the width or height of the path from the B&A area to any nearby and obvious trip generation facilities' accessible entrance?
3. **Signage**—If there is a bus stop sign, what is it mounted to?
 - a. **Sign Mounted Correctly** – Is the bus stop sign mounted correctly?

4. **Amenities**—What amenities are present at the bus stop?
 - a. **Accessible Amenities**—If there are amenities, are they accessible?
 - b. **Obstructions**—If there are amenities, do they present an obstruction?

Accessible Route

1. **Sidewalk Connection** – Is there a sidewalk connecting to the boarding and alighting area?
 - a. **¼” Change in Elevation**—Are there any nearby changes in elevation greater than ¼ inch along the path from the bus stop boarding and alighting area to any nearby and obvious trip generation facilities’ accessible entrance?
 - b. **Sidewalk Width**—Is the sidewalk at least 48" wide?
 - c. **Marked Crosswalk**—Are there marked crosswalks at the nearest street crossings?
2. **Curb Ramp** – Are there any curb ramps at the nearest intersection?
 - a. **Curb Ramp Slope**—Is the slope of the nearby curb ramp 8.3% or less?
 - b. **Curb Ramp Surface**—Is the surface of the curb ramp stable, firm, and slip resistant?
 - c. **Smooth Transition at Curb Ramp**—Are the transitions where the curb ramp meets the sidewalk and where it meets the street or gutter flush with no abrupt change?
 - d. **Detectable Warning**—Does the surface of the curb ramp have a detectable warnings?
 - e. **Detectable Warning Condition**—What is the condition of the detectable warning strips?
 - f. **Detectable Full Width**—Does the detectable warning strip extend the full width of the curb ramp?
 - g. **Detectable Warning Size**—Is the detectable warning at least 24 inches in depth extend the full width of the sidewalk?
3. **Shelter** – Is there a shelter located at this stop?
 - a. **Shelter Condition**—What is the condition of the shelter?
 - b. **Wheelchair Maneuverability**—Can a person maneuver a wheelchair into and through the shelter?
 - c. **Distance from Curb**—How far away is the shelter from the curb.
 - d. **Accessible Connection**—Is there an accessible connection to the boarding and alighting area from the shelter?

Conclusion

1. **ADA Compliant**—Is the stop ADA compliant?
2. **Short Term Improvements**—Do any items meet the short term improvement criteria?
3. **Non-Compliant Features**—What are the overall non-compliant features at the bus stop?
4. **Recommendations**—What are the recommendations to remediate the ADA issues observed at this stop?

Bus Stop Assessment Form Definitions

GENERAL

1. **ID** – Bus stop identification number.
2. **Location** – Nearest intersection to the bus stop.
3. **Latitude** – The latitude of the bus stop.
4. **Longitude** – The longitude of the bus stop.
5. **Direction** – The general direction the bus is traveling.
6. **Map** – A clickable link to the location of the bus stop in Google Maps.
7. **ADA Compliant** – Is the stop ADA compliant?
8. **Short-Term Improvements** – A summary of the items that meet the short-term fix criteria.
9. **Est. Cost** – The total order-of-magnitude cost estimate to remediate the deficiencies at the stop and surrounding area.
10. **Priority Score** – The system-wide priority of the stop. The lower the number, the sooner the stop is recommended to be fixed. A score of zero represents bus stops that are ADA compliant and have no recommended fixes.
11. **Non-Compliant Features** – A summary of the non-compliant features at the stop.
12. **Weekday** – The total weekday (1-day) ridership utilizing this stop.
13. **Saturday** – The total Saturday ridership utilizing this stop.
14. **Sunday** – The total Saturday ridership utilizing this stop.
15. **Cost Dial** – A graphic dial representing the cost to mitigate the bus stop.
 - a. A stop listed as **ADA Compliant** is classified as “**Compliant**”.
 - b. A stop with an **Estimated Cost** of \$3,000 or less is classified as “**Low Cost**”.
 - c. A stop with an **Estimated Cost** greater than \$3,000 and less than \$10,000 is classified as “**Medium Cost**”.
 - d. A stop with an **Estimated Cost** of greater than \$10,000 is classified as “**High Cost**”.
16. **Recommendations** – The recommendations to remediate the ADA issues observed at and around this bus stop.

BUS STOP LOCATION

17. **Stop Location** – The location of the bus, when stopped at the bus stop (e.g. In a travel-thru lane or in a right-turn only lane).
18. **Relation to Intersection** – The location of the bus stop in relation to the nearest intersection (e.g. nearside, farside, or midblock).
19. **Hazards** – Are there any potential traffic or safety hazards at the bus stop (e.g. the bus discharges passengers onto the roadway, the bus stop is just over the crest of a hill, or the bus stop is located just after the curve in the street).
20. **Trip Generators** – Any nearby and obvious trip generators for passengers at this stop.

BOARDING AND ALIGHTING (B&A)

21. **Is there a B&A area** – Is there a boarding and alighting (B&A) area at the bus stop?
22. **Is the B&A Safe** – Is the B&A pad in a safe area for waiting and boarding?
23. **B&A Materials** – What material is the B&A pad made out of (dirt/grass, cement, or is it partially paved with cement)?
24. **B&A Condition** – What is the physical condition of the B&A pad? Is it free of defects (is it firm, stable, and slip resistant)?
25. **Slope Parallel to Road (%)** – What is the running slope of the B&A pad (percentage)?
26. **Slope Perpendicular to Road (%)** – What is the cross slope of the B&A pad (percentage)?
27. **B&A Obstructions** – If applicable, what obstructions are there in the B&A area?
28. **B&A Barriers** – Are there any physical barriers that constrict the width or height of the path from the boarding and alighting area to any nearby and obvious trip generation facilities' accessible entrance?
29. **Sidewalk Connection** – Is there a sidewalk connecting to the boarding and alighting area?
30. **Sidewalk Width (ft.)** – If there is a nearby sidewalk, what is its width?
31. **Curb Type/Height** – If applicable, what is the height and type of curb at the bus stop?
32. **¼" Change in Elevation** – Are there any nearby changes in elevation greater than ¼ inch along the path from the bus stop boarding and alighting area to any nearby and obvious trip generation facilities' accessible entrance?

AMENITIES

33. **Signage** – If there is a bus stop sign, what is it mounted to?
34. **Sign Mounted Correctly** – Is the bus stop sign mounted correctly?
35. **Amenities** – What amenities are present at the bus stop?
36. **Bench Accessible** – If there is a bench, is it accessible?
37. **Bench an Obstruction** – If there is a bench, does it present an obstruction?
38. **Trashcan Accessible** – If there is a trashcan, is it accessible?
39. **Trashcan Obstruction** – If there is a trashcan, is it an obstruction?
40. **Schedule Accessible** – If there is a schedule, is it accessible?

SHELTER

41. **Shelter** – Is there a shelter located at this stop?
42. **Shelter Condition** – What is the condition of the shelter?
43. **Clear Space** – Is there sufficient space for a person in a wheelchair to maneuver a wheelchair into the shelter?
44. **Accessible Connection** – Is there an accessible connection to the boarding and alighting area from the shelter?

CURB RAMPS AND CROSSWALKS

45. **Curb Ramp** – Are there any curb ramps at the nearest intersection?
46. **Smooth Transition at Curb Ramp** – Are the transitions where the curb ramp(s) meets the sidewalk and where it meets the street or gutter flush with no abrupt change?
47. **Curb Ramp Slope** – Is the slope of the nearby curb ramp(s) 1:12 (8.3%) or less?
48. **Curb Ramp Surface** – Is the surface of the curb ramp stable, firm, and slip resistant?
49. **Detectable Warning** – Does the surface of the curb ramp have a detectable warnings?
50. **Detectable Warning Condition** – What is the condition of the detectable warning strips?

51. **Detectable Full Width** – Does the detectable warning strip extend the full width of the curb ramp?
52. **24” Detectable Warning** – Is the detectable warning at least 24 inches from the throat of the ramp and does it extend the full width of the sidewalk?
53. **Detectable Warning High Contrast** – Are the detectable warnings high contrast?
54. **Marked Crosswalk** – Are there marked crosswalks at the nearest street crossings?
55. **Protected Crosswalk** – Is the crossing protected?

PHOTOS

56. **Northbound Photo** – A photograph of the bus stop looking northbound.
57. **Southbound Photo** – A photograph of the bus stop looking southbound.
58. **Supplemental Photo** – If applicable, an additional photograph of the bus stop or surrounding area.
59. **Supplemental Photo** – If applicable, an additional photograph of the bus stop or surrounding area.
60. **Eastbound Photo** – A photograph of the bus stop looking eastbound.
61. **Westbound Photo** – A photograph of the bus stop looking westbound.
