

Intermodal Station Feasibility Study

All aboard! A passenger rail station is being explored in Brevard County. The potential intermodal station site is located near Clearlake Rd (SR 501) and SR 528.

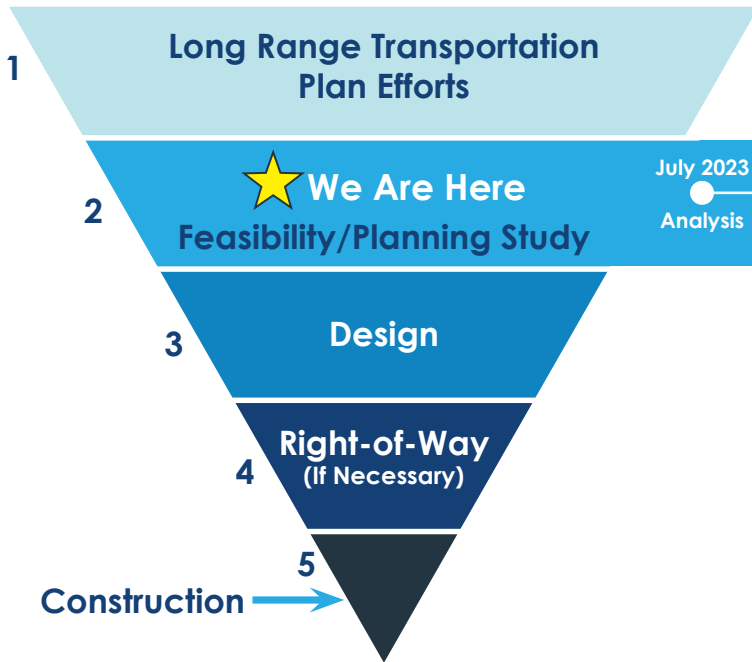

Project Overview

- Enhance mobility by identifying and analyzing intermodal connections to major regional destinations.
- Understand potential ridership.
- Identify station foot print (size, parking, transit, rideshare).
- Identify surrounding infrastructure improvements.
- Create an implementation plan.
