

Federal-Aid Road Report

This report provides detailed information about all roads on the State Highway System and many additional public roads. It includes the Federal agency responsible for providing federal aid after a disaster, functional classification, local road name, and the name of the road or boundary at each end of each segment identified by FDOT's Roadway ID.

The roads are listed first by county, and then in the order of the Roadway ID. A given Roadway ID may include portions with several different local road names, and a single local road name may include multiple Roadway IDs.
